UNIFIED TRIPLE MONITOR MOUNT 4040
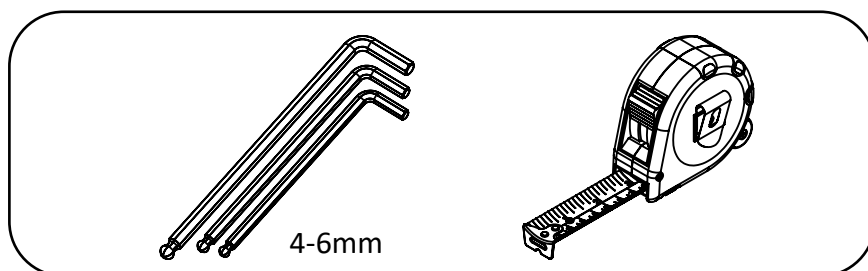

INSTRUCTION MANUAL

REQUIRED TOOLS:

4-6mm

TREQ
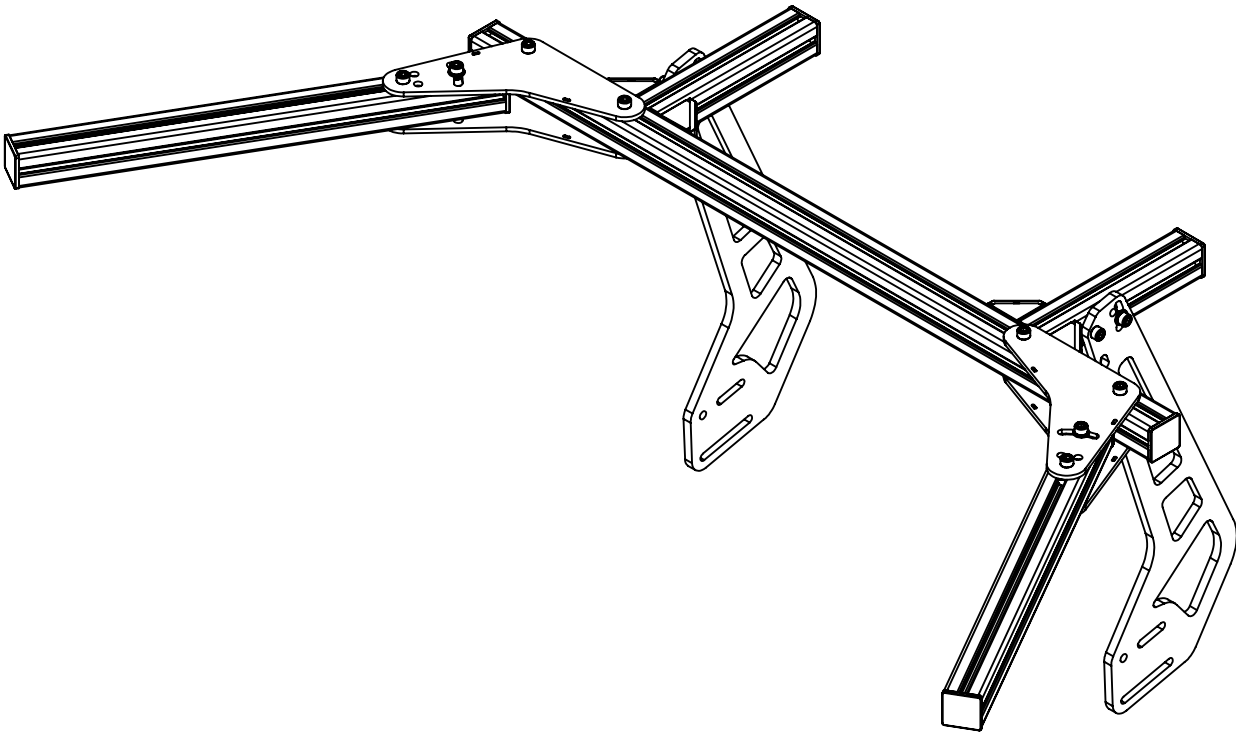

GENERAL INSTRUCTIONS

The easiest way to mount the T-Slot Click-in-Nuts, is to slide them in from one side of the profile, with the ball facing down. But don't worry if you need to put in a click-in-nut in a profile which has both ends already closed: it is also possible to push them in the T-slot anywhere you like!

3

Attach the Corner Brackets to the 4040 L=220 profiles.

Make sure the corner brackets are in line with the end of the profile, or 'pulled back' a very short distance (maximum of 1 mm), as displayed on the left. They must not reach further than the end of the profile, as displayed on the right. This weakens the construction.
